

Med Dog Waste Management vs. The Competition

How We Stack Up Against National Medical Waste Disposal Companies

National
Medical Waste
Companies

More Details...

Guaranteed Lower Prices		NO	We guarantee we'll save you 15% or more over what you're currently paying, while providing better medical waste services.
No Price Increases for the Term of Our Agreement		NO	They raise their prices by as much as 18% per year, every year. We guarantee in writing we won't raise your prices during the term of our agreement and by no more than 10% if you renew.
No Monthly Fees Without Service		NO	National medical waste companies charge you an automatic monthly fee even if they don't pick up any medical waste that month. We charge ONLY when we pick up your medical waste.
Right to Opt Out of Our Agreement Without Penalty		NO	We believe great service and lower prices will help us retain our customers. That's why we offer flexible terms which allows you to opt out of our agreement without any penalty.
Flexible Pickup Schedules		NO	National Waste Companies will make you work around their schedules. We offer flexible pickup schedules that meet your needs, not ours.
Immediate Responses From Local Service Representatives		NO	We don't use a national call center to service our customers. When you call you'll get an immediate response from a local service rep and a solution to your problem within two hours.
Compliance Training Programs At Half The Cost		NO	You won't have to buy a high-priced premium package in order to access compliance training programs. We offer the same certified training programs for about half the cost.
Document Management and Savings on Bundled Services		NO	In addition to medical waste services we also shred, store and scan confidential documents. Combine two or more services to save up to 40%.
100% Satisfaction Guarantee or Your Service is Free		NO	We're the only medical waste disposal company that offers a 100% Satisfaction Guarantee . If you're not happy with our service, we'll refund your service fee.
Licensed, Insured and Fully Compliant			We are licensed, insured and fully compliant with all state and federal medical waste handling laws.
